

# The Gold Digger Rally

August 26/27 2006

Hosted by the West Coast Rally Association  
Round 4 of the BC Rally Championship

The Gold Digger Rally is an all night time-speed-distance (TSD) event, part of the BC Rally Championship following the 2006 BC TSD Rally Regulations, which are available from Rally Pacific Motorsports, Ken Kwong (604) 736-0036, or on-line at [http://www.rallybc.com/html/regional\\_rules.htm](http://www.rallybc.com/html/regional_rules.htm). The rally runs on straightforward instructions, and will be approximately 342 km in length with roads about 77% gravel and 22% paved (and 1% paved with really big potholes). Maximum distance between gas stops is 291 km (180 miles).

**Required equipment:** 1 reflective warning triangle, 5BC fire extinguisher (10BC recommended), mandatory first aid kit, soft top vehicles require a roll bar.

**Recommended equipment:** map light, driving lights (strongly recommended), clipboard, and a pen. No loose gas cans are permitted, jerry can refueling by advance coordination only.

**Important note on safety equipment:** The regulations on minimum mandatory first aid equipment have been updated for 2006. Because our events take place on remote roads, far from medical help, in the unlikely event of an accident involving injury, the first people on the scene will be other competitors, and they will be the people best positioned to administer first aid. To that end, where the regulations used to require only a basic first aid kit, contents undefined, RPM has now defined what must be in that kit:

## *Mandatory Vehicle First Aid Kit*

10 Cleansing Wipes	10 Butterfly Closures
25 Adhesive Bandages 1.9cmx7.5cm	6 Cotton Tip Applicators
Knuckle Bandages	1 Tongue Depressor
4 Fingertip Bandages	2 pair Vinyl Gloves
2 Gauze Pads 5cmx5cm	1 pair Scissors 14cm
3 Gauze Pads 7.5cmx7.5cm	1 First Aid Pocket guide
3 Gauze Pads 10cmx10cm	1 Adhesive Tape 2.5cm x 4.5m
1 Elastic Gauze Bandage 5cm x 4.5m	1 pair Tweezers
1 Elastic Gauze Bandage 7.5cm x 4.5m	1 Cold Compress
1 Pressure Bandage 10cmx10cm	3 Triangular Bandage - 2 extra over kit
1 Abdominal Pad 12cmx22cm	2 Space Blankets - additional
2 Oval Eye Pads	<b>(SOS not required)</b>

Each leg of the rally will end with a gas or rest stop, and is divided into Transit stages and Regularity stages. Transit stages give a stage time, which is adequate for completing the stage well within posted speed limits. Your time will not be recorded in Transit stages. Regularity stages list specific average speeds, which are below posted speed limits, and which you must maintain in each part of the stage. Timing controls will be in Regularity stages only, and will not be placed within 200 meters of stop signs or busy intersections. Procedure when approaching a control is simply to drive straight past without stopping. The control official will record your time. For double-checking the results, you may wish to note the time and mileage at each control but this is not required. Your timing in these stages determines your score.

There is a one second penalty free zone each side of perfect time. A penalty of one point per second early or late is assessed at each control *after the one-second penalty free zone is exceeded*. At the finish scores will be totaled and the lowest score wins. The maximum penalty at each control is 300 points (5 minutes). The maximum penalty during each regularity (TSD) section is 600 points (10 minutes). Control officials will remain in place at least 5 minutes until any remaining cars are beyond 5 minutes late. Ties will be broken by the most zero scores, then the most 1 second penalties, etc.

**Exceptions to Scoring:** a competitor coming upon an accident is required to stop and render aid if possible. In such cases, the competitor should record the time and mileage in the stage. If stopping as a result of an accident, calculate the time lost and give a written declaration of this to a rally official or the event steward. Unless it is determined that the incident did not occur as declared, the declaration will be accepted and the remainder of the leg scored as if delayed by the time lost. Hence, lost time must not be made up until the next end of the leg. Declarations of time lost will also be considered for organizers' errors that make official time unattainable and other discretionary safety concerns.

Prizes will be awarded for overall position and according to the following classes:

- Novice:** Neither team member having entered more than 3 TSD rallies before the current year and equipment limited to Calculator Class.
- Paper:** No calculators, rally tables or accessory odometers.
- Calculator:** Accessory odometers, non-programmable calculating devices that are not driven by a wheel.
- Unlimited:** Unlimited equipment.
- Historic:** Vehicles manufactured before December 31, 1974, as per the date stated on the vehicle registration. Navigation equipment must conform to Calculator class.
- Historic Equipped:** Vehicles manufactured before December 31, 1974, as per the date stated on the vehicle registration. Navigation equipment is unlimited. Results scored as Unlimited in the Championship

The organizers reserve the right to upgrade entries to the next class if less than 2 vehicles are entered. The vehicle owner's written permission is required for use of the vehicle on the rally and it must be attached to the entry form.
